

Passionate and detail-oriented Frontend Developer with a self-taught background beginning in high school, currently pursuing a B.Tech in Computer Science & Engineering. Adept at transforming complex UI concepts into interactive, animated, and responsive web applications. Recognized at the district level for innovative web solutions, and driven by a strong commitment to writing clean, pixel-perfect code.

EDUCATION

B.Tech in Computer Science & Engineering (CSE)

Present · 1st Year, 2nd Sem

Focusing on core computer science foundations, algorithms, data structures, and advanced software engineering principles while actively building production-grade web applications.

TECHNICAL SKILLS

FRONTEND CORE

HTML5

Modern CSS3

JavaScript (ES6+)

Responsive Web Design

STYLING & UI/UX

Tailwind CSS

Advanced CSS Animations

Transitions

Box/Text Shadows

Interactive UI Design

TOOLS & WORKFLOW

Git

GitHub

Vercel Deployment

Spck Editor

Glitch Editor

AI Prompt Engineering

NOTABLE PROJECTS & INNOVATIONS

Free Professional Course Finder

District Level Project

- Developed a comprehensive multi-page web platform using HTML, CSS, and the Glitch editor to help students discover quality free professional courses.
- Awarded and honored at the district level by school faculty for exceptional problem-solving and utility.

LifeFlow AI & FinPulse OS

KRIXORA Brand Ecosystem

- Engineered interactive productivity and finance web applications featuring custom animations, dynamic UI components, and a seamless user experience.
- Deployed and managed production builds via GitHub and Vercel under the developer brand **KRIXORA**.

Utility & Creative Mini-Projects

Ongoing Practice Portfolio

- Built project organizers, custom calculators, authentication/login interfaces, and complex CSS-based scenery and technical drawings.

JOURNEY & MILESTONES

Self-Taught Origins & Mobile Development

11th Standard

Started the coding journey entirely on a mobile phone using Telegram bots and YouTube resources via CodeYogi, writing the very first `<h1>Hie I'm krish</h1>` before acquiring any professional development gear.

Key Recognition — awarded a dedicated professional keyboard and mouse by school mentors, in recognition of outstanding coding performance, continuous progress, and exceptional problem-solving support within student developer communities.

CERTIFICATES & CONTINUOUS LEARNING

- Code.org** — 10 professional programming & logic certificates
- SkillEdu × Alpine Institute of Technology** — 5-Day Python Programming Workshop
- AI & Modern Tools** — specialized training in AI prompt engineering and modern web development workflows
- Community Contribution** — active problem solver in developer student groups, assisting peers with debugging and complex coding errors
