

KRISH PARMAR

Frontend Web Developer & B.Tech CSE Student | Founder of KRIXORA

GitHub: github.com/krixora Brand: KRIXORA Education: B.Tech CSE (1st Year / 2nd Semester)

Passionate and detail-oriented Frontend Developer with a self-taught background beginning in high school, currently pursuing B.Tech in Computer Science & Engineering. Adept at transforming complex UI concepts into interactive, animated, and responsive web applications. Recognized at the district level for innovative web solutions and driven by a strong commitment to writing clean, pixel-perfect code.

EDUCATION

B.Tech in Computer Science & Engineering (CSE)

Present (1st Year / 2nd Sem)

Focusing on core computer science foundations, algorithms, data structures, and advanced software engineering principles while actively building production-grade web applications.

TECHNICAL SKILLS

Frontend Core:	HTML5, Modern CSS3, JavaScript (ES6+), Responsive Web Design
Styling & UI/UX:	Tailwind CSS, Advanced CSS Animations, Transitions, Box/Text Shadows, Interactive UI Design
Tools & Workflow:	Git, GitHub, Vercel Deployment, Spck Editor, Glitch Editor, AI Prompt Engineering Tools

NOTABLE PROJECTS & INNOVATIONS

Free Professional Course Finder

District Level Project

- Developed a comprehensive multi-page web platform utilizing HTML, CSS, and Glitch editor to help students discover quality free professional courses.
- Awarded and honored at the district level by school faculty for exceptional problem-solving and utility.

LifeFlow & FinPulse Web Applications

KRIXORA Brand Ecosystem

- Engineered interactive web applications featuring custom animations, dynamic UI components, and seamless user experience.
- Deployed and managed production builds via GitHub and Vercel under the developer brand **KRIXORA**.

Utility & Creative Mini-Projects

Ongoing Practice Portfolio

- Built Project Organizers, Custom Calculators, Authentication/Login interfaces, and complex CSS-based sceneries and technical drawings.

JOURNEY & MILESTONES

Self-Taught Origins & Mobile Development

11th Standard

Started coding journey on a mobile phone using Telegram bots and YouTube resources via CodeYogi, writing the very first `<h1>Hie I'm krish</h1>` code snippet before acquiring professional development gear.

Key Recognition: Awarded a dedicated professional keyboard and mouse by school mentors in recognition of outstanding coding performance, continuous progress, and exceptional problem-solving support in student developer communities.

CERTIFICATES & CONTINUOUS LEARNING

- Code.org:** Earned 10 professional programming and logic certificates.
- AI & Modern Tools:** Specialized training in AI prompt engineering and modern web development workflows.
- Community Contribution:** Active problem solver in developer student groups, assisting peers in debugging and resolving complex coding errors.
